Another Dangerous 'Christian Pastor' Running For Office Who Distorts Scripture

Just months after Texas legislator James Talarico emerged as one of the Democratic Party's most recognizable "Christian" voices, Kansas pastor Adam Hamilton appears poised to follow the same path.

Like Talarico, Hamilton speaks comfortably about Jesus, frequently quotes Scripture, and presents himself as a thoughtful, compassionate Christian. Yet beneath that appealing image lies a far more significant concern. Both men promote a version of Christianity that steadily reshapes biblical teaching to fit modern progressive culture rather than calling culture back to biblical truth.

That should concern Christians regardless of their political affiliation.

Hamilton, the longtime pastor of Church of the Resurrection--the largest United Methodist congregation in America--is now the leading Democratic candidate for the U.S. Senate in Kansas. His campaign is likely to emphasize unity, compassion, and faith in public life. Those are admirable goals. The problem is not that Hamilton is a pastor seeking public office. The problem is the theology he would bring with him.

For centuries, Christianity has taught that Scripture stands above every culture, every political movement, and every generation. Human opinions change. God's Word does not.

Hamilton reverses that relationship.

Over the years, he has repeatedly questioned biblical inerrancy, argued that the Bible contains errors, and encouraged Christians to rethink long-held doctrines through the lens of contemporary culture. Rather than seeking to reconcile difficult passages or trust Scripture's authority, Hamilton has suggested that some biblical writers were simply reflecting the limited understanding of their own times.

That approach may sound reasonable at first, but it carries enormous consequences.

Once Christians are taught that Scripture is no longer the final authority, nearly every difficult doctrine becomes negotiable. Instead of asking what the Bible teaches, believers begin asking what modern society finds acceptable.

Not surprisingly, Hamilton's positions on many of today's most controversial issues follow that pattern.

He has been one of the most influential Methodist leaders advocating for the affirmation of same-sex relationships and the redefinition of biblical marriage. Rather than defending two thousand years of historic Christian teaching, Hamilton has argued that the church should revisit its interpretation of passages dealing with sexuality in light of modern understandings.

His broader ministry reflects the same trajectory. Hamilton frequently emphasizes progressive political priorities--including expansive immigration policies, climate activism, racial justice initiatives, and broader social reform--as central expressions of Christian faith.

While faithful Christians may certainly disagree over public policy, many critics believe Hamilton consistently elevates contemporary political causes while softening or reinterpreting biblical teachings that conflict with today's cultural consensus.

That mirrors the approach increasingly seen from James Talarico.

Talarico has become one of the Democratic Party's most visible advocates of progressive Christianity, often using biblical language to defend left-leaning political positions while challenging traditional Christian interpretations on issues ranging from sexuality to public morality.

Their personalities may differ, but their method is remarkably similar.

Both speak warmly about Jesus.

Both quote Scripture often.

Both describe themselves as committed Christians.

Yet both ultimately ask believers to reinterpret long-settled biblical doctrines whenever those doctrines collide with today's progressive values.

The pattern extends beyond sexuality.

Hamilton has questioned whether difficult Old Testament passages should still be understood as revealing God's character, frequently encouraging readers to separate what he views as timeless spiritual principles from what he considers culturally conditioned teachings. While historical context certainly matters in biblical interpretation, critics argue Hamilton goes much further--placing modern moral sensibilities in judgment over Scripture itself.

That represents a dramatic shift from historic Christianity.

The church has always wrestled with difficult passages. Christians have debated interpretations for centuries. But the historic approach has been to seek a deeper understanding of God's Word--not to lower confidence in God's Word whenever it challenges prevailing cultural assumptions.

History also offers an important warning.

Many of the mainline Protestant denominations that embraced this progressive approach to Scripture over the past several decades have experienced dramatic membership declines, shrinking congregations, aging churches, and diminishing cultural influence. Rather than revitalizing Christianity by accommodating the culture, many have instead watched the distinctiveness of the Christian faith slowly disappear.

Ironically, churches that continue to affirm biblical authority often remain t ones experiencing growth both in America and around the world.

This is why Hamilton's Senate campaign matters.

It is not simply about electing another Democrat or another pastor.

It reflects a growing movement within American Christianity that seeks to redefine the faith itself. Instead of allowing Scripture to shape culture, culture increasingly becomes the lens through which Scripture is interpreted.

Christians can certainly disagree over taxes, healthcare, immigration levels, or foreign policy. Those are legitimate political debates where faithful believers may reach different conclusions.

But questions about the authority of Scripture, the definition of marriage, the nature of sin, the uniqueness of Christ, and the moral standards God has established are not simply partisan issues. They are foundational questions of Christian doctrine.

Once those foundations become negotiable, everything else eventually follows.

Every generation faces teachers who promise to make Christianity more acceptable to the surrounding culture. History shows those movements rarely strengthen the church. More often, they gradually empty Christianity of the very truths that made it distinct in the first place.

James Talarico has become one of the Democratic Party's national spokesmen for progressive Christianity. Adam Hamilton now appears positioned to become one of its most influential pastoral voices.

Christians should always welcome pastors into public life.

But they should also be discerning when those pastors spend years asking believers to reshape Christianity around the values of the culture instead of calling the culture back to the authority of God's Word.
