Kansas Pastors Call on Adam Hamilton to Repent, Exit Senate Race

When an influential pastor announces a run for the United States Senate, the political implications are obvious. But in Kansas, the candidacy of Adam Hamilton has ignited a controversy that goes far beyond politics. It raises a question that increasingly divides American Christianity: Can a pastor reinterpret foundational biblical teachings and still claim to faithfully represent the Christian faith?

Hamilton, the founding pastor of Church of the Resurrection, one of America's largest United Methodist congregations, has long been a prominent voice within progressive Methodism. His positions on salvation, biblical authority, sexuality, and abortion have attracted both supporters and critics.

Now, as Hamilton seeks political office, some fellow pastors are challenging not merely his policy positions but the theology he has spent decades teaching.

Kansas pastor Kyle Lammott of Exodus Church in Wichita issued an open letter urging Hamilton to publicly repent of what Lammott considers unbiblical teachings and withdraw from the Senate race. The letter reportedly attracted more than 700 signatures within days.

But the controversy exposes something considerably larger than a disagreement between two ministers. It reveals a widening fracture over the very foundations of Christian belief.

Can People Be Saved Without Faith In Christ?

Among the most serious objections raised against Hamilton is his teaching that people of other religions may ultimately be saved through Jesus Christ without consciously knowing or professing faith in Him.

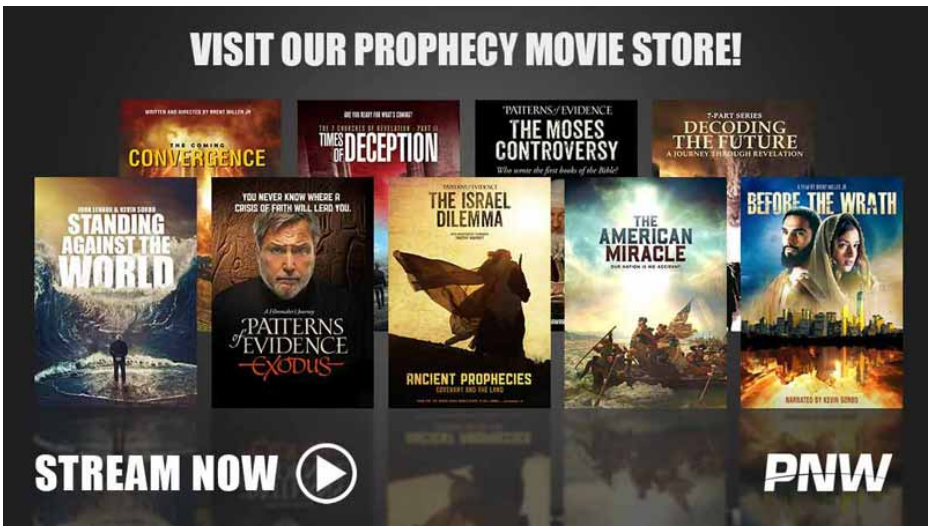

Hamilton has presented this understanding as an expression of God's grace, drawing upon broader Christian discussions about how Christ's saving work might extend to those who have never explicitly believed.

Critics argue that such teaching undermines the New Testament's repeated emphasis on repentance, faith, and the necessity of proclaiming the gospel.

Jesus declared, "I am the way, the truth, and the life: no man cometh unto the Father, but by me" (John 14:6). Peter proclaimed that salvation is found in no other name than Jesus Christ (Acts 4:12). Paul asked in Romans 10 how people could believe in someone they had never heard about, emphasizing the necessity of preaching.

For Lammott, the implications are enormous. If salvation can be assured apart from personal faith in Christ, what becomes of the urgency of evangelism and the Great Commission?

The disagreement is not simply about how Christians should treat people of other religions. Scripture commands believers to love their neighbors. The issue is whether the church can soften or reinterpret the biblical message of salvation without fundamentally changing the gospel it has been entrusted to proclaim.

Who Has Authority Over Scripture?

Perhaps even more consequential is Hamilton's approach to biblical authority.

Hamilton has publicly acknowledged passages he believes reflect the limitations or cultural assumptions of their human authors. His critics argue that this

approach allows contemporary moral judgments to determine which biblical teachings remain authoritative.

Lammott specifically objected to interpretations that appear to place the teachings of Jesus in opposition to those of the apostle Paul.

But the New Testament presents the apostles as commissioned witnesses of Christ, not independent religious philosophers whose teachings Christians are free to discard.

Peter refers to Paul's letters alongside other Scriptures in 2 Peter 3:16. Jesus Himself declared that Scripture cannot be broken (John 10:35).

Christians have long wrestled with difficult biblical passages, historical context, and questions of interpretation. Yet there is a profound difference between seeking to understand what Scripture teaches and deciding that its teachings must yield whenever they conflict with modern cultural expectations.

Once the authority to determine truth shifts from Scripture to the preferences of the interpreter, the consequences extend far beyond any single controversial doctrine.

Marriage, Sexuality And The Methodist Divide

That tension has already transformed Hamilton's own denomination.

The United Methodist Church experienced a historic fracture over biblical teachings on marriage and sexuality, with thousands of congregations departing amid disputes over the denomination's direction.

Hamilton supported removing denominational restrictions concerning same-sex relationships and clergy, changes approved by the United Methodist General Conference in 2024.

Supporters regarded the changes as an overdue expression of Christian inclusion. Traditionalists viewed them as a departure from the biblical understanding of marriage established in Genesis and reaffirmed by Jesus in Matthew 19.

For critics such as Lammott, these controversies are not isolated disagreements. They are connected by a common question: Does the church receive its moral teachings from Scripture, or does it revise those teachings to accommodate a changing society?

The danger, traditionalists argue, is that a church can retain Christian language, beautiful worship services, and an emphasis on love while gradually abandoning doctrines that historically defined its faith.

When The Pulpit Enters Politics

Hamilton's Senate candidacy introduces another dimension to the debate.

His stated support for legal abortion has drawn particularly strong objections from pastors who believe protecting unborn life is a fundamental biblical responsibility.

Lammott appealed to passages including Psalm 139, which describes God's involvement in forming human life in the womb, and Proverbs 6:17, which condemns the shedding of innocent blood.

Hamilton approaches abortion as a complex moral and public-policy question. His critics contend that his position conflicts with the biblical responsibility to defend vulnerable human life.

Of course, Christians have long disagreed about how religious convictions should translate into legislation. A pastor entering politics does not automatically make every theological disagreement a qualification for public office.

But Hamilton's prominence as a Christian leader makes the relationship between his pastoral teaching and political positions a legitimate subject of public examination.

James 3:1 warns that teachers will be judged with greater strictness. For Christians who take that warning seriously, the responsibility of a pastor does not disappear when he steps onto the campaign trail.

The Larger Battle Facing American Christianity

Southern Baptist leader Willy Rice has recently warned against churches retreating from moral and cultural questions, arguing that congregations need biblical instruction rather than leaving believers to form their convictions through social media and political commentary.

Yet the Hamilton controversy highlights an equally important concern: Speaking publicly about moral issues accomplishes little if churches no longer agree about the authority of the Bible itself.

The American church does not merely face pressure from an increasingly secular culture. It also faces disagreements within its own ranks over salvation, sexuality, the sanctity of life, and whether Scripture has the final word.

The challenge is not to turn every pulpit into a political platform. Nor is it to confuse loyalty to Christ with loyalty to a political party.

It is to recognize that the church's first responsibility is not to remain culturally acceptable, politically influential, or institutionally successful. It is to remain faithful to the truth it has been entrusted to proclaim.

Adam Hamilton's Senate race may eventually be decided at the ballot box. But the deeper battle over biblical authority will continue long after the election is over.
